# PL VACUMATIC WATERLESS COOKWARE

ENERGY EFFICIENT • T304 STAINLESS STEEL • LIFETIME  
GUARANTEE

## NUTRITIONAL FOOD PREPARATION

**Multi-layers** of heat conducting metals spread heat quickly and evenly eliminating the need for oil.

**A vapor seal** creates a vacuum in each pan and eliminates the need for excess water as well. Foods prepared the waterless, low-temperature way retain more **vitamins** and **minerals**.

THE TRI-TONE VENT MAKES IT POSSIBLE TO  
COOK IN A VACUUM VAPOR.

Your *Health* IS OUR BUSINESS

canamwellness.com

# VACUMATIC WATERLESS COOKWARE

## WHAT IS VACUMATIC WATERLESS COOKWARE?

Vacumatic is the process of cooking your vegetables in a completely sealed 'vacuum vapor'

Other methods, such as *steaming*, *boiling* or *microwaving* all bring the foods to 100° Celsius / 212° F, which is the temperature where the vitamins, minerals and nutritional goodness start to break down. When cooking in a vacuum vapor the temperature does not exceed 72° Celsius / 162° F therefore retaining 98% of all the natural *vitamins*, *minerals*, *color* and *taste*.

Without features such as the vapor seal, Vac-control whistle valve, heat conducting inner cores that extends up the sides of the cookware, you cannot cook the proper Vacumatic Waterless way. This heat conducting inner core also offers *energy savings, up to 70%*, virtually paying for the cookware in a few years.

Your *Health* IS OUR BUSINESS

[canamwellness.com](http://canamwellness.com)

# VACUMATIC WATERLESS COOKWARE

## THREE IMPORTANT ADVANTAGES OF VACUMATIC

### LOCK-IN LID STORAGE

THE SELF NESTING DESIGN ALLOWS YOU TO STACK AND STORE YOUR COOKWARE IN THE CABINET USING A MINIMAL AMOUNT OF SPACE. PERFECT FOR SMALL KITCHENS.

### 1 Save Time

- ▶ **5-ply construction** allows for **fast and even** heat distribution
- ▶ **Food cooks faster**
- ▶ No pot watching, burning or scorching, as the heat **cooks from all sides**, not just the bottom
- ▶ **Vapor lock whistle**, tells you when to turn it off. No pot watching
- ▶ **Creates a vacuum** for fast, even cooking
- ▶ **T304 surgical steel with titanium**, hard durable surface
- ▶ **Cleans up fast** and easily
- ▶ Bake on top of the stove, **faster than the oven**

### 2 Save Money

- ▶ **Double Lifetime Warranty**
- ▶ No replacement costs
- ▶ Less food shrinkage means a **lower grocery bill**
- ▶ Low heat cooking leads to lower energy bills
- ▶ Reduced oven use equals **saved energy**

### 3 Save Health

- ▶ **Retains nutrients** through low moisture/low heat vacuum cooking
- ▶ **Maximizes** vitamin and mineral content
- ▶ Allows you to **cook low fat**
- ▶ Made with T304 Surgical Steel with Titanium which is non-reactive
- ▶ **No leaching** of metals or chemicals into your food

A SECOND HANDLE ON EVERY PAN FOR EASY HANDLING.

HANDLES STAY COOL AND ARE ERGONOMICALLY DESIGNED FOR A BETTER GRIP. FULL WRAP-AROUND FLAMEGUARD.

DURABLE PHENOLIC CONSTRUCTION WITHSTANDS OVEN HEAT UP TO 350° CELSIUS/662° F.

# VACUMATIC WATERLESS COOKWARE

## VACUMATIC COOKWARE VS. STORE-BOUGHT COOKWARE

*Vacumatic* cookware is engineered and constructed of the finest quality materials in the industry. The cooking surface, T304 surgical steel with titanium, is a non-chemically reactive surface that will not leach metals or chemicals into your food. The full body 7-ply design gives you the ultimate in even heat conduction. *CanAm Wellness's* dedication to quality means a lifetime of healthy cooking.

Don't be fooled by imitations.

Many cookware companies advertise their cookware as multi-ply on the *bottom of the pan*. This creates uneven heat distribution, and the need to use excess water to cook. *Vacumatic Cookware is 5-ply on all sides with a thermal base* which distributes the heat perfectly for true vacuum waterless cooking.

## HERE'S A LOOK AT SOME DEFECIENCIES OF OTHER COOKWARE

### Non-surgical steel

- ▶ Poor heat distribution
- ▶ Must use oil or water
- ▶ Hard to clean
- ▶ Food can stick and burn

### Aluminum

- ▶ Very soft metal, can pit and warp
- ▶ Can leach into your food when cooking acidic foods, such as tomato sauce
- ▶ Many brands are not dishwasher safe

### Non-stick coated

- ▶ Will typically scratch, chip & flake
- ▶ Most brands are not dishwasher safe
- ▶ Can leach chemicals into your food
- ▶ Not recommended to use on high heat
- ▶ Fumes from over heated pans can be harmful

Your *Health* IS OUR BUSINESS

canamwellness.com

# VACUMATIC WATERLESS COOKWARE

1

## Condensing Groove and Partial Vacuum Lid

The *partial-vacuum lid* is constructed to insure a perfect fit.

The *condensation groove* collects air and water to create an almost *air-tight seal*.

This *eliminates evaporation* and unpleasant cooking odors all while retaining *precious nutrients*.

2

## Stay-Cool Ergonomic Handles

These *durable welded handles* with flame guards, makes for a more solid hold.

The *units are comfortable* to carry, since the *handles do not heat up*.

3

## Pentacore®

The special *PentaCore Compact Base*, with the *force of 1600 tons*, becomes inseparably adhered to the *1.2mm thick body* made out of several light-metal layers.

This allows for *high energy efficiency*, while quickly and *evenly spreading heat* over the entire surface.

4

## Tri-Tone Whistle® Vent

In music, a *tri-tone* refers to an interval comprised of three whole tones.

With the *PL VACUMATIC Line of cookware* the Tri-Tone Whistle® creates a different kind of harmony: *time, money, health*.

When the desired temperature is reached, the Tri-Tone Whistle® alerts you to turn off the heat. There is *no need to lift the lid or stir the food* to prevent scorching or burning.

# WATER PURIFICATION PRODUCTS

DRINK WATER LIKE YOUR LIFE DEPENDED ON IT...  
**BECAUSE IT DOES!**

WHY IS WATER  
SO IMPORTANT TO  
OUR HEALTH?

APPROXIMATELY TWO  
THIRDS OF OUR BODY  
WEIGHT IS WATER.

BLOOD	63%
BRAIN	75%
MUSCLES	75%
LUNGS	80%
LIVER	85%
KIDNEYS	63%
BONES	22%

Your *Health* IS OUR BUSINESS

[canamwellness.com](http://canamwellness.com)

# WHAT ARE YOUR OPTIONS?

1

## BOTTLED WATER

Industry with little government regulation, standards or controls. Very expensive - 99% of cost is the bottle, transportation, advertising and profit. Large bottles and multi-packs are heavy and inconvenient to carry. No chlorine to prevent bacteria build up during storage. ( usually months/years ). Leeching of trace toxic phthalate and vinyl chloride from the bottle into the water. Toxic chemicals released into the environment during the manufacturing, disposal and recycling of 1.5 billion tons of plastic bottles each year and growing. Even spring water is subject to underground contamination.

2

## SMALL PITCHER OR FAUCET MOUNTED FILTERS

Ineffective in the removal of toxic chemicals, heavy metals and harmful bacteria. The American Water Works Association has said small cartridge units are "totally useless, because of their size and the brief exposure time."

CAUTION! THE BRITA WATER FILTER IS NOT INTENDED TO PURIFY WATER. ( BRITA PACKAGING ) AND THE PRESENCE OF ORGANIC NUTRIENTS IN CARBON FILTERS CAN PROMOTE BACTERIAL GROWTH, AS QUICKLY AS OVERNIGHT. ( CITY OF OTTAWA WATER PURIFICATION WEBSITE ).

3

## REVERSE OSMOSIS FILTRATION SYSTEM

Removes natural healthy minerals producing water that is flat and tasteless. Very slow process uses up to 8 gallons to produce 1 gallon of purified water. Chlorine and hot water adversely affect the RO membrane which can rupture without indication, allowing unfiltered water through to your stored water. This is a large and bulky system that is expensive to install and maintain.

4

## WATER DISTILLATION SYSTEM

Removes natural healthy minerals producing water that is flat and tasteless. Expensive to install and maintain with high electricity consumption. Holding tank is subject to bacteria contamination. Ineffective at removing many pollutants, pesticides and THM's.

5

## GRANULAR ACTIVATED CARBON FILTERS

Will not remove all harmful bacteria or heavy metals from the water. Filter can quickly become contaminated with bacteria and sealed units are not cleanable (no replaceable cartridge), requiring premature disposal. GAC's permit water to forge channels through the carbon allowing unfiltered water to pass through. The silver nitrate can quickly escape into the drinking water. No washable pre filter to prevent clogging of the filter.

# WATER PURIFICATION PRODUCTS

## SO WHAT'S MY BEST CHOICE?

THE BEST TYPE OF FILTER TO BUY WOULD BE AN ACTIVATED CARBON BLOCK FILTER WITH A SEDIMENT PRE-FILTER TO REMOVE BACTERIA AND PARASITES, AND AN AUTOMATIC SHUT OFF POINT WHEN THE FILTER HAS REACHED ITS LIMIT.

ALIVE HEALTH MAGAZINE ARTICLE COMPARING ALL WATER FILTRATION METHODS.

## WHAT THE BELKRAFT 4-STAGE WATER PURIFIER HAS TO OFFER

- ▶ The BelKraft ceramic/carbon block cartridge filters to 0.3 of a micron. The diameter of a human hair is about 100 microns, human cells 10 microns and bacteria as small as 3 microns. The ceramic filter is impregnated with silver which kills bacteria on contact.
- ▶ Filters out harmful bacteria, parasites and viruses including gardia lambia cysts, cryptosporidium, ecoli, fecal coliforms, hepatitis B and salmonella.
- ▶ Filters out toxic chemicals including dioxins, arsenic, asbestos, benzene, nitrates, PCB's and carcinogenic chlorination bi-products namely Trihalomethanes or THM's.
- ▶ The highly compressed carbon block filter is equivalent to water traveling through 300,000 square yards of filtration media, ensuring only the purest drinking water.
- ▶ Significantly reduces heavy metals including lead, mercury, aluminum, iron, copper and silver.
- ▶ The washable sub-micron ceramic pre-filter prevents clogging of the purifier, extending its effective life and acting as an automatic warning indicator.
- ▶ Simple to clean and service.
- ▶ Made in Canada by BelKraft in business since 1965.
- ▶ Full 50 year warranty.

# WATER PURIFICATION PRODUCTS

## HERE'S HOW IT WORKS

**1** The washable ceramic surface traps all suspended matter larger than 0.3 microns, including harmful bacteria, asbestos, cryptosporidium, e-coli, salmonella, parasites, micro-organisms, cysts and more. You will know by the decrease in the water flow that it is time to clean the surface of the cartridge.

At this point your water has been stripped of all suspended matter, yet the filtration process has just begun.

**2** The water passes through our unique sub-micron NSF certified ceramic. This element is silver impregnated to prevent bacteria growth. Free silver ions have a toxic effect on micro-organisms.

**3** The filtering process continues through the NSF certified ceramic core carbon block which is created to remove over 98% of all heavy metals such as lead, mercury, MTBE and BTEX ( petroleum and crude oil by-products ) and cadmium, just to name a few.

**4** The final stage is a combination of compressed carbon. This stage provides a carbon block that is the equivalent of approximately 300,000 square yards of media. Removing a host of chemicals including THMs, chlorine, chloramines, chloroform, sulfides, pesticides, herbicides, VOC's and more, in addition to bad tastes, color and odors.

THE WATER LEAVING YOUR SYSTEM IS NOW CLEANER, SAFER, FRESHER TASTING AND CRYSTAL CLEAR! ALL WITH PERFECT pH.

**WATER**

## CANAM WELLNESS HEPA FILTERS – PORTABLE UNITS

### AIRWASH PORTABLE COMMERCIAL

- The Airwash Portable is a high quality HEPA Air purification "Air Scrubber" unit that possess: Superior cylindrical HEPA filtration providing greater coverage with a larger surface area increasing longevity and resulting in fewer filter changes.
- Cylindrical filter allows for even particulate loading and performs to full capacity.
- Versatile, multi-functional 5 stage filtration system for diverse environments and a wide array of applications.
- Tool-less access for speedy filter changes. Can be used for smoke and fire damage clean up, greenhouses & nurseries, automotive facilities, waste removal facilities, and paint removal facilities.

### MODEL 300

- **Class:** Portable HEPA Filtration System
- **Delivered Airflow:** 20-40 CFM ( Cubic Feet per Minute )
- **Dimensions:** 8 ½" round, 7 ½" high
- **Control:** 3 position, 2 speed switch
- **Power Consumption:** 12V DC
- **Outflow:** 360°
- **Many colors to choose from**
- **Filter Life:**
  - ▶ Pre-Filter: Washable (12 months)
  - ▶ HEPA Filter: 2-5 years
  - ▶ Carbon Filter: 6 months
  - ▶ Optional V.O.C. Canister: 12 months

# AIR PURIFICATION PRODUCTS

6-STAGE COMPACT AIR PURIFIER IS DESIGNED FOR SMALLER AREAS.

It contains a **4-stage filtering cartridge** with an additional ionization stage and **ozone stage** for maximum protection against contaminants and odors.

The **three speed motor** provides effective air cleaning performance and will cleanse a 375 square foot area two times an hour.

This **state-of-the-art filtering system** removes a wide range of contaminants, gases, chemicals and odors from the environment.

The **replaceable filtering cartridge** consists of a PureTech Pre-filter, followed by a H.E.P.A. filter, then an Anti-Microbial filter and finally an Activated Charcoal Filter.

When the air filtration system is in use, **the ionization stage feature** emits a continual mild charge of negative ions that help freshen stale air.

## 6-STAGE COMPACT AIR PURIFIER

THE OZONE STAGE OFFERS A TIME CONTROLLED OZONE GENERATING FEATURE TO BE USED AS NECESSARY WHEN ODORS ARE STRONGER.

# JUICE EXTRACTORS

## DISCOVER THE POWER OF JUICING

*Juicing helps you make healthier eating choices.* Research studies have repeatedly shown direct relationship between diet and health. Doctors and healthcare practitioners alike are discussing how to decrease the risk of heart disease and certain cancers through proper diet.

**Keep yourself  
healthy and energetic!**

Current recommendations are to **increase the intake of fiber and complex carbohydrates**, and decrease the intake of fat, cholesterol, sugar and sodium. With the CanAm Wellness Juice Extractor, you have the opportunity to make changes in your diet and increase your intake of fiber and complex carbohydrates.

A 6000 RPM motor simply means you will get a full glass of juice without trying to decide to eat dripping wet pulp or drink the juice.

The **CanAm Wellness juicers** are designed to make the preparation of fruit and vegetables juices **easy and convenient**. Enjoy fresh fruits and vegetables in their prime and quickly prepare them to fit your family's needs and dietary plans.

- ▶ **Healthy** cooking; waterless, no oils or fats
- ▶ **Dripless rim design** for easy pouring
- ▶ **Stay cool** safe grip handles
- ▶ **Temperature gauge** on the lids

## THE MÜLLER 13 PIECE COOKWARE SET

**1,200 tons of pressure** is used to affix the 'Accuthermal' compact-base to the bottom of our thermo cookers. This compact base is the key to Muller's **energy-saving** method.

Made of several **light metal alloys**, it enhances heat conductivity so that **heat is evenly distributed and stored**. This engineering feature enables food to be cooked on a low setting and in less time than traditional cookware, increasing **energy saving up to 70%**!

ONE OF THE MAJOR ADVANTAGES OF MÜLLER'S UNIQUE COOKING SYSTEM IS THAT DIFFERENT COOKING UNITS CAN BE STACKED IN ORDER TO COOK MULTIPLE DISHES USING ONLY ONE BURNER OR HOT PLATE.

# WE HOPE YOU HAVE ENJOYED PREVIEWING OUR CANAM WELLNESS COLLECTION.

When making a purchase decision, we *believe in giving you the personal attention* that you deserve, therefore our quality line of products are only available through private showings with an *authorized CanAm Wellness representative*. This method of marketing *allows you to avoid high retail mark ups* and also shop from the convenience of your own home.

The greatest gift that anyone of our clients can give us is for their *word of mouth advertising*, and below are just a few of the wonderful premiums that *we reward you* with for hosting your own CanAm Wellness showing.

Help the people that you care about the most by introducing them to this *amazing line of health and wellness products*.

*It's easy, fun* and best of all, *you'll receive one or more of these fantastic gifts* simply for opening your home to a certified CanAm Wellness representative and the CanAm Wellness Experience.

**LET US SHARE WITH YOU THE CANAM WELLNESS EXPERIENCE,  
NUTRITION DESIGNED TO ENHANCE YOUR LIFESTYLE THROUGH  
PROPER FOOD PREPARATION, CLEAN WATER AND AIR.**
